NEWBORN & BABY
PHOTOGRAPHY

A GRAND
adventure
IS ABOUT TO BEGIN...

HELLO!

Congratulations! It's so great to hear that you are interested in booking a photography session for your new arrival!

There is something so precious about the first few months with your baby, and I can absolutely promise you that you will treasure these photographs for many years to come. To create images of those early touches, looks and cuddles with your child is such a huge privilege, and I can't wait to capture a bit of this time for you!

My sessions are incredibly relaxed, and take place in your own home.
This means that we can work around your newborn's needs, and photograph you all in comfortable surroundings. I want to create a set of images for you that encapsulates this wonderful time in your family life.

Have a look through the information in this guide, and then let's have a chat and get your session booked in. I can't wait to hear from you!

WHAT TO EXPECT

When you make your booking, I will talk through all the details with you so that you know exactly how the session will work. I know how chaotic life can be with a small baby, especially if you have other children as well, so everything will be incredibly relaxed. We can take as long as necessary to work around feeds, nappy changes, and anything else!

If you would like to capture your baby as a newborn, then the session is best within the first two weeks after the birth, while your baby is still really tiny. These sessions enable me to photograph the first days of family life for you. If you prefer, then we can book in a session when your baby is a little older, in which case I'd recommend waiting until after six weeks old, when they will usually be starting to smile.

I don't pose your baby for the photographs. This session is about capturing the beauty of your family in a completely natural way, photographing things just as they are: your beautiful newborn sleeping, the tiny details, their eyelashes, the delicate fingers, the soft hair on their skin; it's capturing your new family together in your home, feeling the love and the wonder as you hold your new baby, giving you images that truly transport you back to that fleeting and incredibly special time in your lives.

After the session, I will carefully select and edit your images, and send these to you to view in a password protected online gallery. This will be available for two weeks for you to make your image and print selections. You can also choose to share this gallery with your friends and family if you would like to. Your session fee includes 3 prints of your choice, and 5 digital downloads.If you would like more images, you can upgrade to a collection or choose from the bespoke menu. All this can be done in your own time at home through the online gallery, or I am always happy to help chat through the options with you if you prefer.

THANK YOU SO MUCH FOR SENDING THE PHOTOS THROUGH, THEY ARE SO LOVELY! WE'VE WATCHED THE SLIDESHOW OVER AND OVER AND EACH TIME FIND NEW ONES THAT WE LOVE!

...ONCE AGAIN, THANK YOU FOR THE LOVELY IMAGES. I KNOW THAT WE WILL TREASURE THEM FOR YEARS TO COME!
